2	All the responsible official statistics producers	System of reference metadata; 025243	It is planned to further develop and implement the system of reference metadata and quality reports (RZSMETA). Reference metadata describe the content and quality of statistical data and are aimed at providing to users of statistical products additional information for their correct use and interpretation. The system of reference metadata and quality reports RZSMETA is made of a repository of metadata (SQLSERVER database) and application that enables users to create reference metadata and quality reports. It is developed according to the EUROSTAT standards (SIMS 2.0). Reference metadata are available on the website of the SORS, and quality reports are published on the SORS intranet portal. RZSMETA enables also automatic generation of files in SDMX format which then transmitted to EUROSTAT.	Continuous					Law on Official Statistics		
2. Classifications											
1	Statistical Office of the Republic of Serbia and Ministry of Finance - Customs Administration	Combined Nomenclature - Customs Tariff; 016041	The customs tariff applied is harmonised with the Combined Nomenclature of the EU. Harmonisation of the Customs Tariff with the Combined Nomenclature; linking of changes in the Customs Tariff from the current year with the CT version valid in the previous year and reprocessing for the previous years by the new CT; implementation of the CT for the current year and its linkage with other classifications in the statistical system	Continuous					Law on Official Statistics		
2	Statistical Office of the Republic of Serbia	Classification of Activities; 025050	A special law defines the Classification of Activities (CA), as well as the general standard used to classify the units of classification into activities.
